How many persons know that Ripans Tabules; now so largely advertised and used, are simply the favorite prescription of their finily doctor prepared in a scientific manner and a form convenient for handling, conveyance, preservation and used. In the great hospitals of the metopolitan cities, where the wealthy find better care than in their own luxuitions homes, the ingredients of Ripans Tabules are administered to thousands of rich and poor arike with beneficial effect. They are the main dependence of the most adment physicians, in cases of deraugement of the digestive organs, such as alysepsia, constitution, billiousness, and other till connected with the stome k, tive and bowds. For some years one of the principal hospitals in New York City has used a formula, differing slightly from the common one, that his been found of unusual efficacy. Through the commendations of physicians its mission of healing his been so widely and rapidly extending that it finally seemed derindle to prepare the prescriptions in a convenient form, so as to trake it available to the whole public at a moderate price, and to announce the fact through the recognized medium for securing publicity—advertisements in the clumps of the newspepers of the land. This has been done, and now the time is not far distant when every family of intelligence will be as certain to pesses a supply of Ripans Tabules as a clock or a cocking stove. They are already to be found on sale admost everywhere, and any orthogists or dealer will supply there. A box, containing six while, is seld for 75 cents, and a gros package, containing four foxes, for \$2.1 They will be sent by mail, post pad, to any address, on receipt of price, by the Ripans Chemical Company, No. Is Spruce St., New York.
